Mr. Pollock said that he, also, has been opposed to the measure until he read the views of Hon. Henry D. Moore in the morning papers,

Mr. Smith advocated the appointment of a committee to go in person over the road and see for themselves—make a pleasure excursion, and at the same time do some benefit to the city.

Mr. Hodgdon made a long and elaborate speech

against the proposed measure, assuring the Chamber that prominent business men pronounce it a fraud and a swindle.

Mr. Pollock desired a report from a committee. There is so much feeling upon both sides, and each is so positive, that to judge of the right course to pursue is impossible until more light is cast upon the subject.
The resolution to appoint the committee was lost

Common Council resolution to appoint a committee relative to the late firemen's riot in the Fourth ward was taken up, but no quorum voted.

Common Branch.—The Chamber met at a quarter past three o'clock, President Marcer in the chair.
The Clerk read the following call for the special

meeting: Office of the Mayor, July 17, 1987.—Dear Sir: You are hereby notified that a special meet-ing of Select and Common Councils will be held in their respective Chambers, on Friday, the 13th inst, at 3 o'clock P. M., to adopt such measures as may be necessary to enable the city to secure the ground on the northern shore of the back channel, fronting League Island, for presentation to the government of the United States for national uses, and for such other purposes of legislation as the public emergency may necessitate. Respectfully, yours, MORTON MCMICHAML, Mayor. From the Mayor was received the following com-

munication in reference to the League Island mat-ter, which was read by the clerk: Office of the Mayor of the City of Phi-LADELPHIA, July 19, 1867.—To the President and Members of Councils—Gentlemen: By an ordinance approved June 28, 1867, the Mayor of the city of Philadelphia, in conjunction with the joint special committee on League Island, was "authorized and directed to enter into negotiations for the purchase, by private agreement with the owner or owners thereof, of so much of the land situate on the northerly shore of the island back channel or water way separating League Island from the main land as may be required by the United States government for a naval station."

In pursuance of the foregoing resolution, ad-dressed to each and all of the owners mentioned a formal inquiry whether they would be willing to dispose of the property indicated to the city for the purposes stated, with a request that they the purposes stated, with a request that they would furnish me, as soon as practicable, with a statement of the price and terms of sale. As that inquiry has not led to any results which promise a satisfactory conclusion at an early day, I have felt it to be my duty to call Councils together, that they may take such further action in the premises as their indemnit may diorate.

as their judgment may dictate.

If League Island is to be secured to the nation as a great naval depot, it is important, in my opinion, that the city of Philadelphia should be placed in a rottler. opinion, that the city of Philadelphia should be placed in a position to convey to the United States the title to League Island and the adjacent property required by the act of Congress, and the award of the Commissioners appointed under that act, without any delay that may possibly be avoided. I therefore recommend that authority shall at once be given to the City Solicitor to take the preliminary stems for the appointment of a the preliminary steps for the appointment of a jary in accordance with the act of Assembly.

Very respectfully,

MORTON MCMICHARL,

Mayor of Philadelphia. Mr. Harper offered an ordinance providing for an application to the Court of Common Pleas for the appointment of a jury to assess a value upon the ground on the back channel that may be required for naval purposes. Agreed to.

The corner-stone of the new building was laid on Sunday afternoon, July 29, 1866, by Fight Rev. Bishop McGill, of Richmond, and Very Rev. Dr. Moristry preached the sermon upon the occasion. The editice will cover an area of seventy-eight by one hundred and eighty feet. It will be built of Connecticut brown stone, of the Roman style of architecture. The interior will measure in the clear 13,600 square feet, and will be seventy-five feet in the apex of the roof. A spire measuring two hundred and twenty-three feet from the base of the building will make the new edifice very conspicuous and prominent. Bey, Father Kieran, its pastor, is about terminating his collection through the parish of St. Michael's, where he has met with the greatest encouragement.

THE SANGERPEST .- A meeting of the Hono rary Committee of the late Sameerfest was held last night, at the half of the German Society, No. 21 South Seventh street. The President, Dr. Theodore Demme, occupied the chair, and F. A. Roese officiated as Secretary. There was a fair attendance of members. The amount of \$1897 was reported paid in by different members of the Committee; those giving the largest sums being Messrs. Theodore Vetterlein and L. Herbeing Messrs. Theodore Vetteriein and L. Her-bert, \$1000; Peter Schemm, \$100; Charles Theiss, \$111: L. Hirsh, \$100; Messrs. Rehbolz, Borm & Freich, \$210; and the Beer Brewers' Association, by Peter Schemm, \$229. A resolu-tion was adopted that the officers of the Honorary Committee shall continue their sessions from time to time, until the collectors have made then prepare a report, which is to be presented to the general body. There was a fair attend-ance of members, and, although the proceedings were substantially as above, there was coniderable and animated discussion.

THE PRIZE BANNER .- The banner given by the Sængeriest as the first prize for the best singing was a magnificent affair. It cost two thousand dollars. The Society to which it was awarded, the New York Liederkranz, is composed mostly of the sons of wealthy merchants. The reception of these young men in Gotham is described as an affair of surpassing splendor.

KICKED BY A HORSE .- Michael Casey, aged twenty-six, residing in Front street, near Car-penter, was kicked by a horse yesterday at Catharine street wharf, and had several of his ribs broken. He was admitted to the Pennsylvania Hospital.

On Fire.-The manufactory of Messrs. Wilson & Co., located at Paul and Meadow streets, Frankford, was somewhat damaged by fire about 9 o'clock last evening. It originated from the boiler. Damage inconsiderable.

NEVER did any movement meet with the more hearty support of our benevolent citizens everywhere than the plan adopted by the Washington Library to raise the necessary funds required for the endowment of the Riverside Institute, a home for the gratuitous support of soldiers' and sailors' orphans. And we might add, too, never was a more liberal plan or greater inducements held out by any corporation in order to inspire the charitable and others to assist in raising to the memory of our departed braves a lasting and perpetual monument. Those who aid in this noble object not only receive in value more than the amount of money they actually subscribe, but can, hereafter, when this great institution is in full working order, remember with pride that their mite, contributed with others, was the result of producing so much comfort and happiness to the hundreds of orphans who will seek shelter beneath the roof of this great home. Let all who have not subscribed call at once at the principal office, No. 1225 Chesnut street, and fully investigate the plan and examine for themselves.

That Dreadful Affiliction, Epilepsy, Convulsions, or Fits, soon becomes firmly fixed by habit, each attack increasing the liability to a return, and adding greatly to the difficulty of arresting the disorder. In the absence of proper treatment, a mere faintness, with alight muscular twitchings, occurring at long intervals, in time becomes violent convulsions of great frequency, and the patient gradually sinks into imbecility. If relief is obtainable at all after the disease is thus firmly seated, it must be from some treatment which is permanent in its effects, and which not only has a tendency to effects, and which not only has a tendency to suppress the attacks, but which will remove the morbid tendency to relapse. Dr. Jayne's Alterative has happily been found to answer this purpose admirably. It gradually changes the morbid condition of the system, removes the cause of the disease, and when its use is continued for a sufficient length of time, produces a permanent cure. Let the afflicted try it, Prepared only at No. 242 Chesnut street.
